EDU INNOVATORS

Streamline & Simplify Processes With EDUkineticX

Save Time, Reduce Complexity

Successful Innovation Requires New or Optimized Process. We will take any fragmented process using paper, manual preprocessing, duplication of work and streamline and simplify it. Whether its interconnecting existing or fragmented processes or manual work, the EDUkineticX solution is flexible enough to accommodate all of your needs. One click approval buttons, fully automatic information processing, digitization of paper forms are just some examples to increase efficiency creating more time for you to focus on students.

Automate Anything * Eliminate Paper * Reduce Duplication of Work * Track Progress

Here are just a few examples where EDUKinetiX has improved educational efficiency:

Automate employee position approvals and postings
Automate employee on boarding tasks and track progress
Electronically process IPad and Chromebook distribution and collection
Electronically manage licensing renewals, clock hours and student behavior
Digitize field trip forums to parents
Track classroom preparation/cleaning for a successful school year start

3 Step Solution

1. *FREE* Process Improvement Assessment

- Document your bottlenecks
- Understand potential time and cost savings
- Identify your innovation starting point

2. Digitize & Optimize Processes

- Use technology instead of paper
- Monitor progress of your workflow
- Interconnect multiple systems

3. Apply Automation for Efficiency

- Approve requests with one click
- Electronically distribute information to other systems and people
